Thousand Islands

Notice of Public Information Centre (PIC)

Rockport Village Urbanization

Township of Leeds and the Thousand Islands

The Corporation of the Township of Leeds and Thousand Islands has initiated the Design phase of Rockport Village urbanization and drainage improvements, including site investigations, development of a detailed engineering design including stormwater design, active transportation consideration and village urbanization.

The Township is committed to managing growth in a responsible manner, planning for the safe, efficient and reliable movement of people and vehicles, and ultimately achieving the Township's vision for a safe, accessible and livable community. With these goals in mind, the project will guide the development of the Village's long-term, multi-modal transportation network, define policies, programs, and infrastructure required to meet the Village's mobility needs, and provide a context for transportation decisions.

A Public Information Centre (PIC) is being held to introduce the project, preliminary results of activities completed to-date and to solicit public and stakeholder's feedback on the information presented. The project team representatives will be available to answer questions and discuss next steps.
